About Me

I am currently pursuing a Python Full Stack Developer course to enhance my skills in both front-end and back-end development. I am passionate about learning new technologies, building efficient web applications, and continuously improving my technical and problem-solving abilities. My goal is to start my career as a full stack developer in a reputed company where I can contribute and grow professionally.

Works

Word guessing game – A console-based Python word guessing game where the player tries to guess a hidden word letter-by-letter or by guessing the whole word. Includes difficulty levels, hint system, scoring and optional highest-score persistence.

Portfolio – Created a Portfolio website for my self to show my skills and also to track my projects which is created by me.
